Technology at work for you

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

Sun State Systems can develop control systems from relay based designs to programmable logic control designs to give you the ultimate technology available. With over 21 years of service, Sun State Systems utilizes the most reliable technology designs looking into the future. From stand alone systems to fully integrated control systems, Sun State Systems can provide what you need, when you need it!

Sun State Systems specializes in inspecting existing control systems for electrical integrity and code violations. Sun State Systems can retrofit any control system to bring it up to current code and up to your current standard, while incorporating any technology you require now or in the future.

ELECTRICAL CONTROL SYSTEM SUPPORT

- COURTEOUS AND RESPONSIVE SALES TEAM
- ENGINEERING BASED ON NEC, UL, AND YOUR REQUIREMENTS
- QUALITY WORKMANSHIP
- THOROUGH QUALITY CONTROL TESTING
- PACKAGING AND SHIPPING
- ONSITE START-UP AND TRAINING SERVICES
- SERVICE AFTER THE SALE

flexible solutions for your electrical control system needs

MANUFACTURING SOLUTIONS

All Control Systems are manufactured by employees with over 20 years of experience. We use the highest quality components by:

- Allen Bradley
- ABB
- Austin
- Eaton/Cutler-Hammer
- Hoffman
- Siemens
- Square D
- Telemecanic
- Yaskawa
- Numerous other manufacturers

INSPECTION OF EXISTING PANELS

Sun State Systems is qualified to inspect any of your existing control panels. We can identify any problems with worn out components, code violations, and insure proper operation of the entire system.

Sun State Systems can repair, upgrade or replace any faulty control systems.

APPLICATION MANAGEMENT

Sun State Systems Engineers can design to your requirements. With over 75 years of combined engineering and design experience, you can rely on a sound design.

ENGINEERING AND DESIGN

Control panels are designed and manufactured to the latest NFPA 70, National Electric Code (NEC) and Underwriters Laboratories (UL) 508A standards.

Control Panels for Intrinsically Safe Applications are also designed and manufactured to UL 698A standards.

CUSTOM SOLUTIONS

Contact our Sales Team for Quality Control Process Solutions for any Custom Applications From Basic Relay Logic to Programmable Logic Control, Sun State Systems has your solution..

WEB SOLUTIONS

Sun State Systems can design, manufacture and program control systems for Internet Interface. From Remote Diagnostic Troubleshooting or System Change, to your ability to Monitor your system from a remote computer or even on your smart phone.

BUSINESS SOLUTIONS

Sun State Systems can provide you with efficient control system design to reduce your monthly electrical cost. Ask us how!
